

The image features a black background with five vertical stripes of different colors: lime green, blue, orange, cyan, and red. A horizontal purple rectangle is centered across the middle of the image, containing the text "Git Flow" in white.

# Git Flow

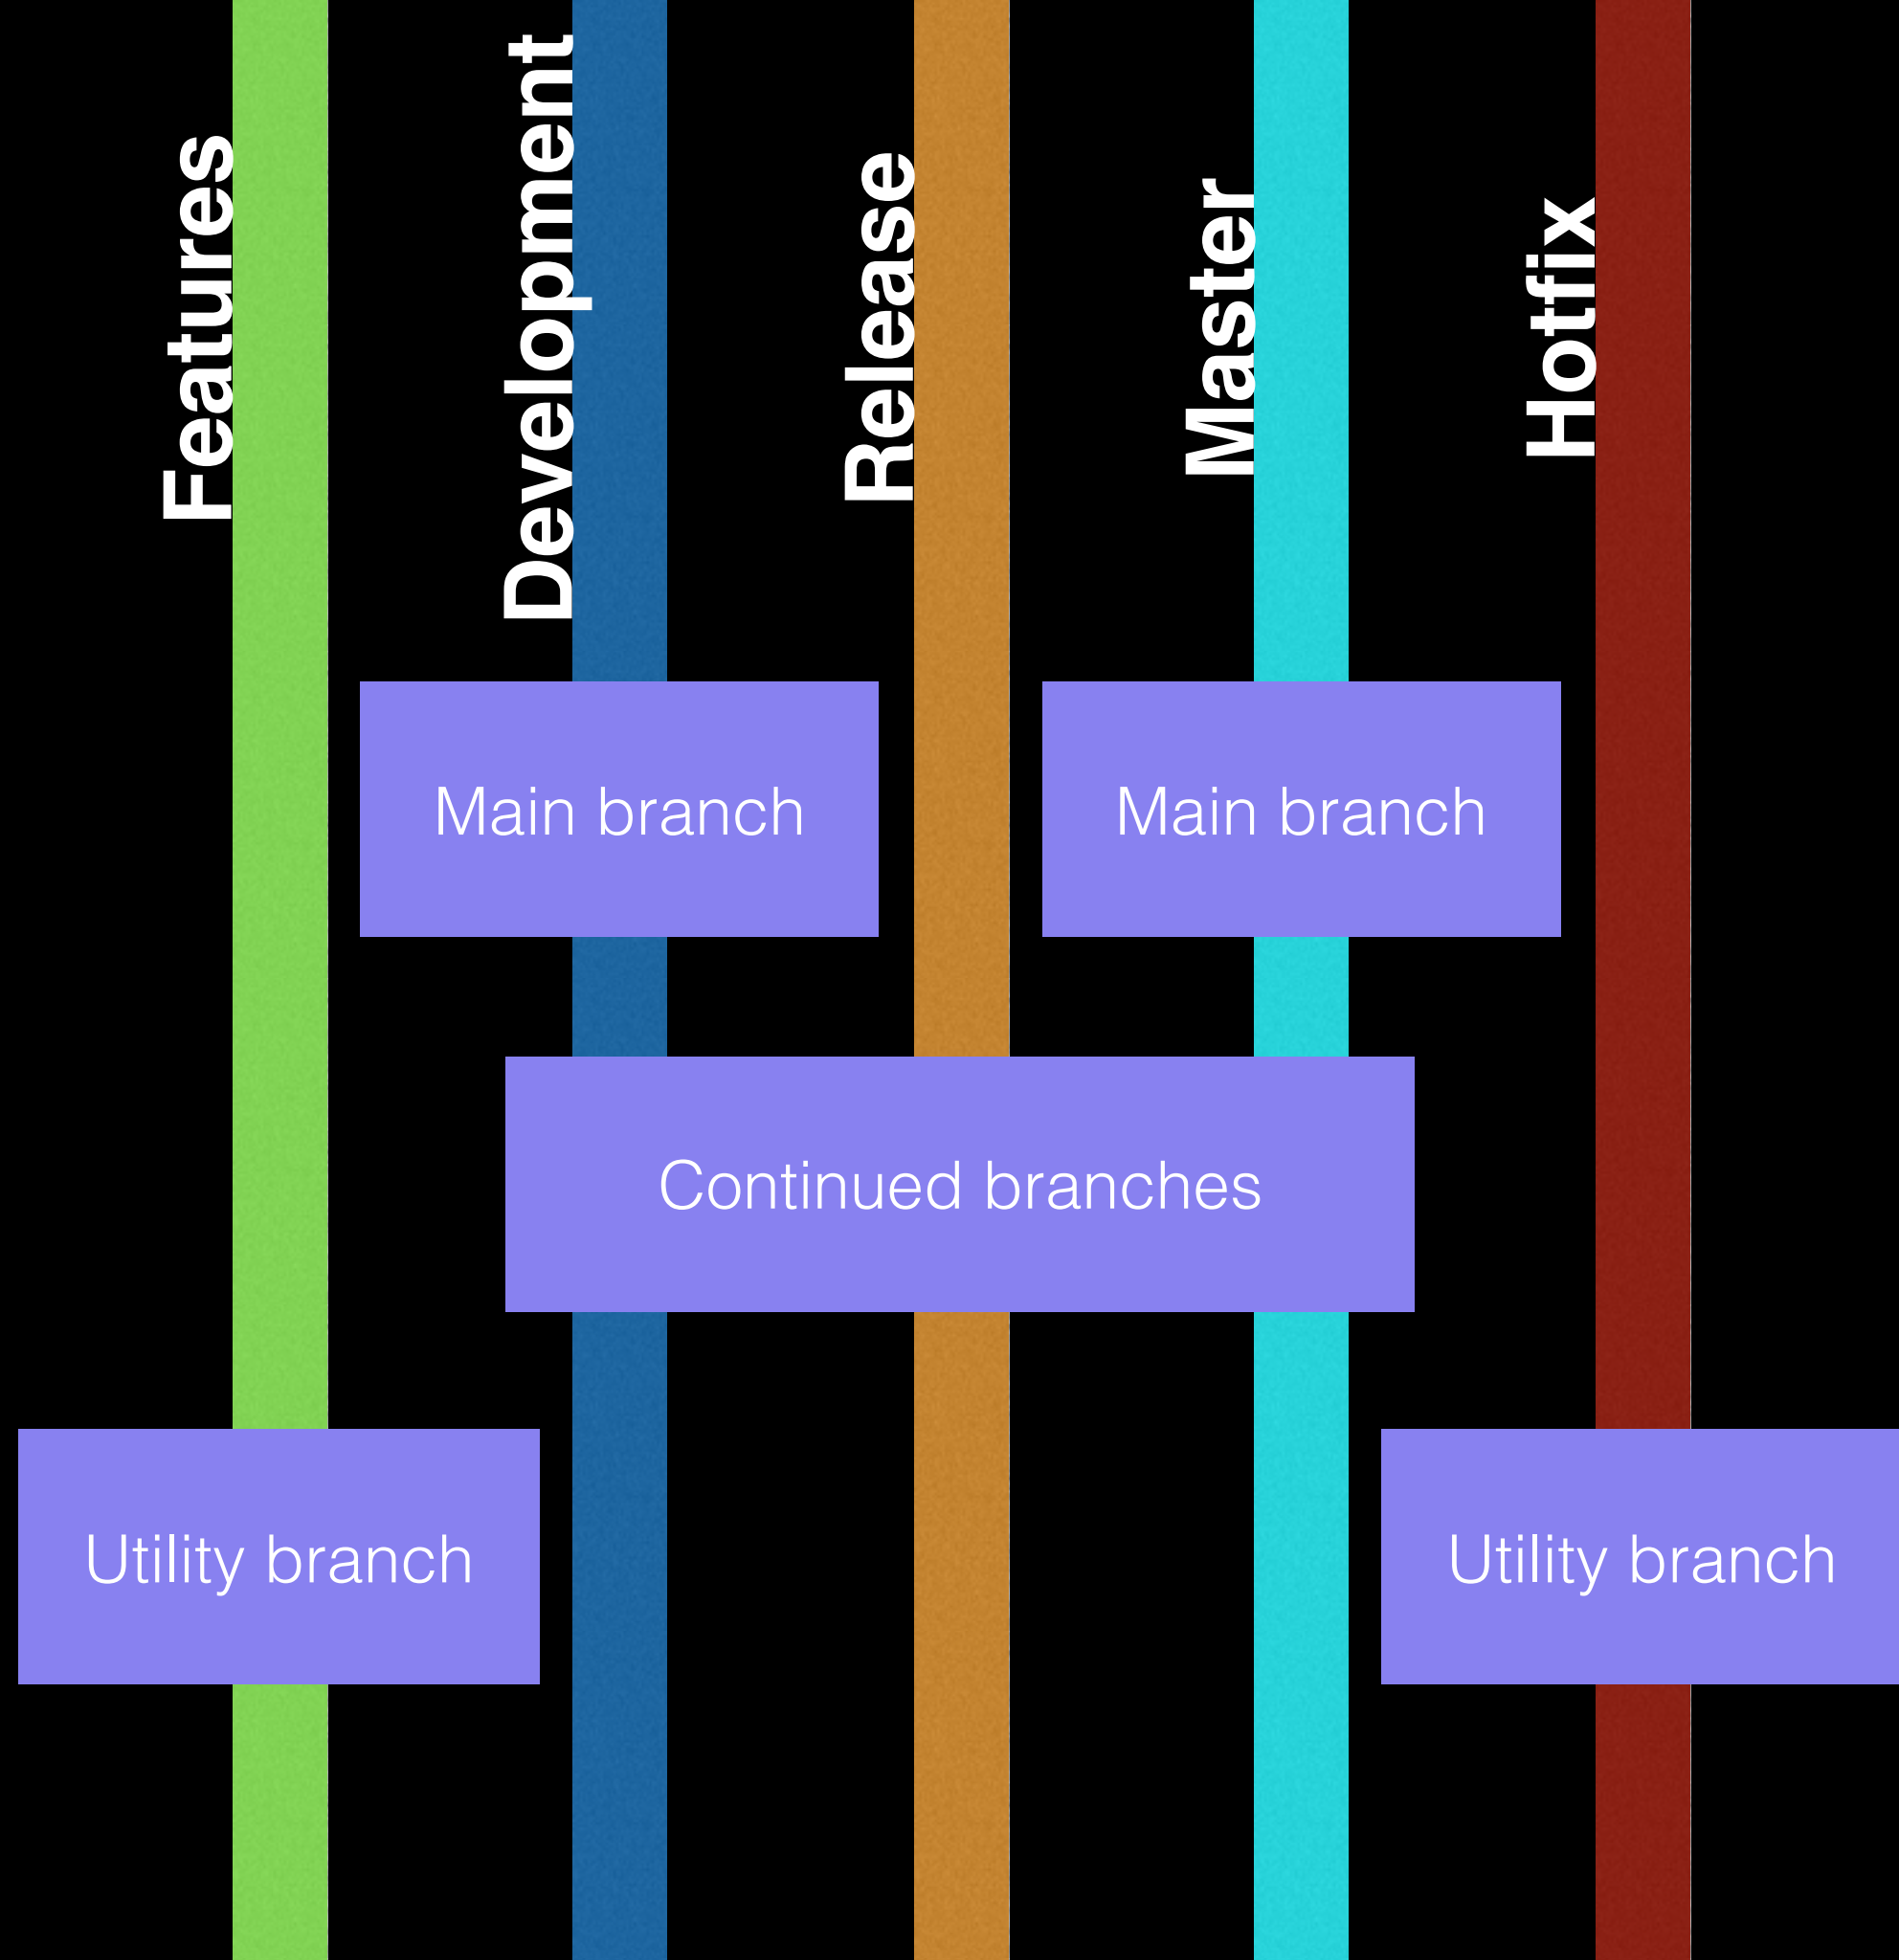

**Features**

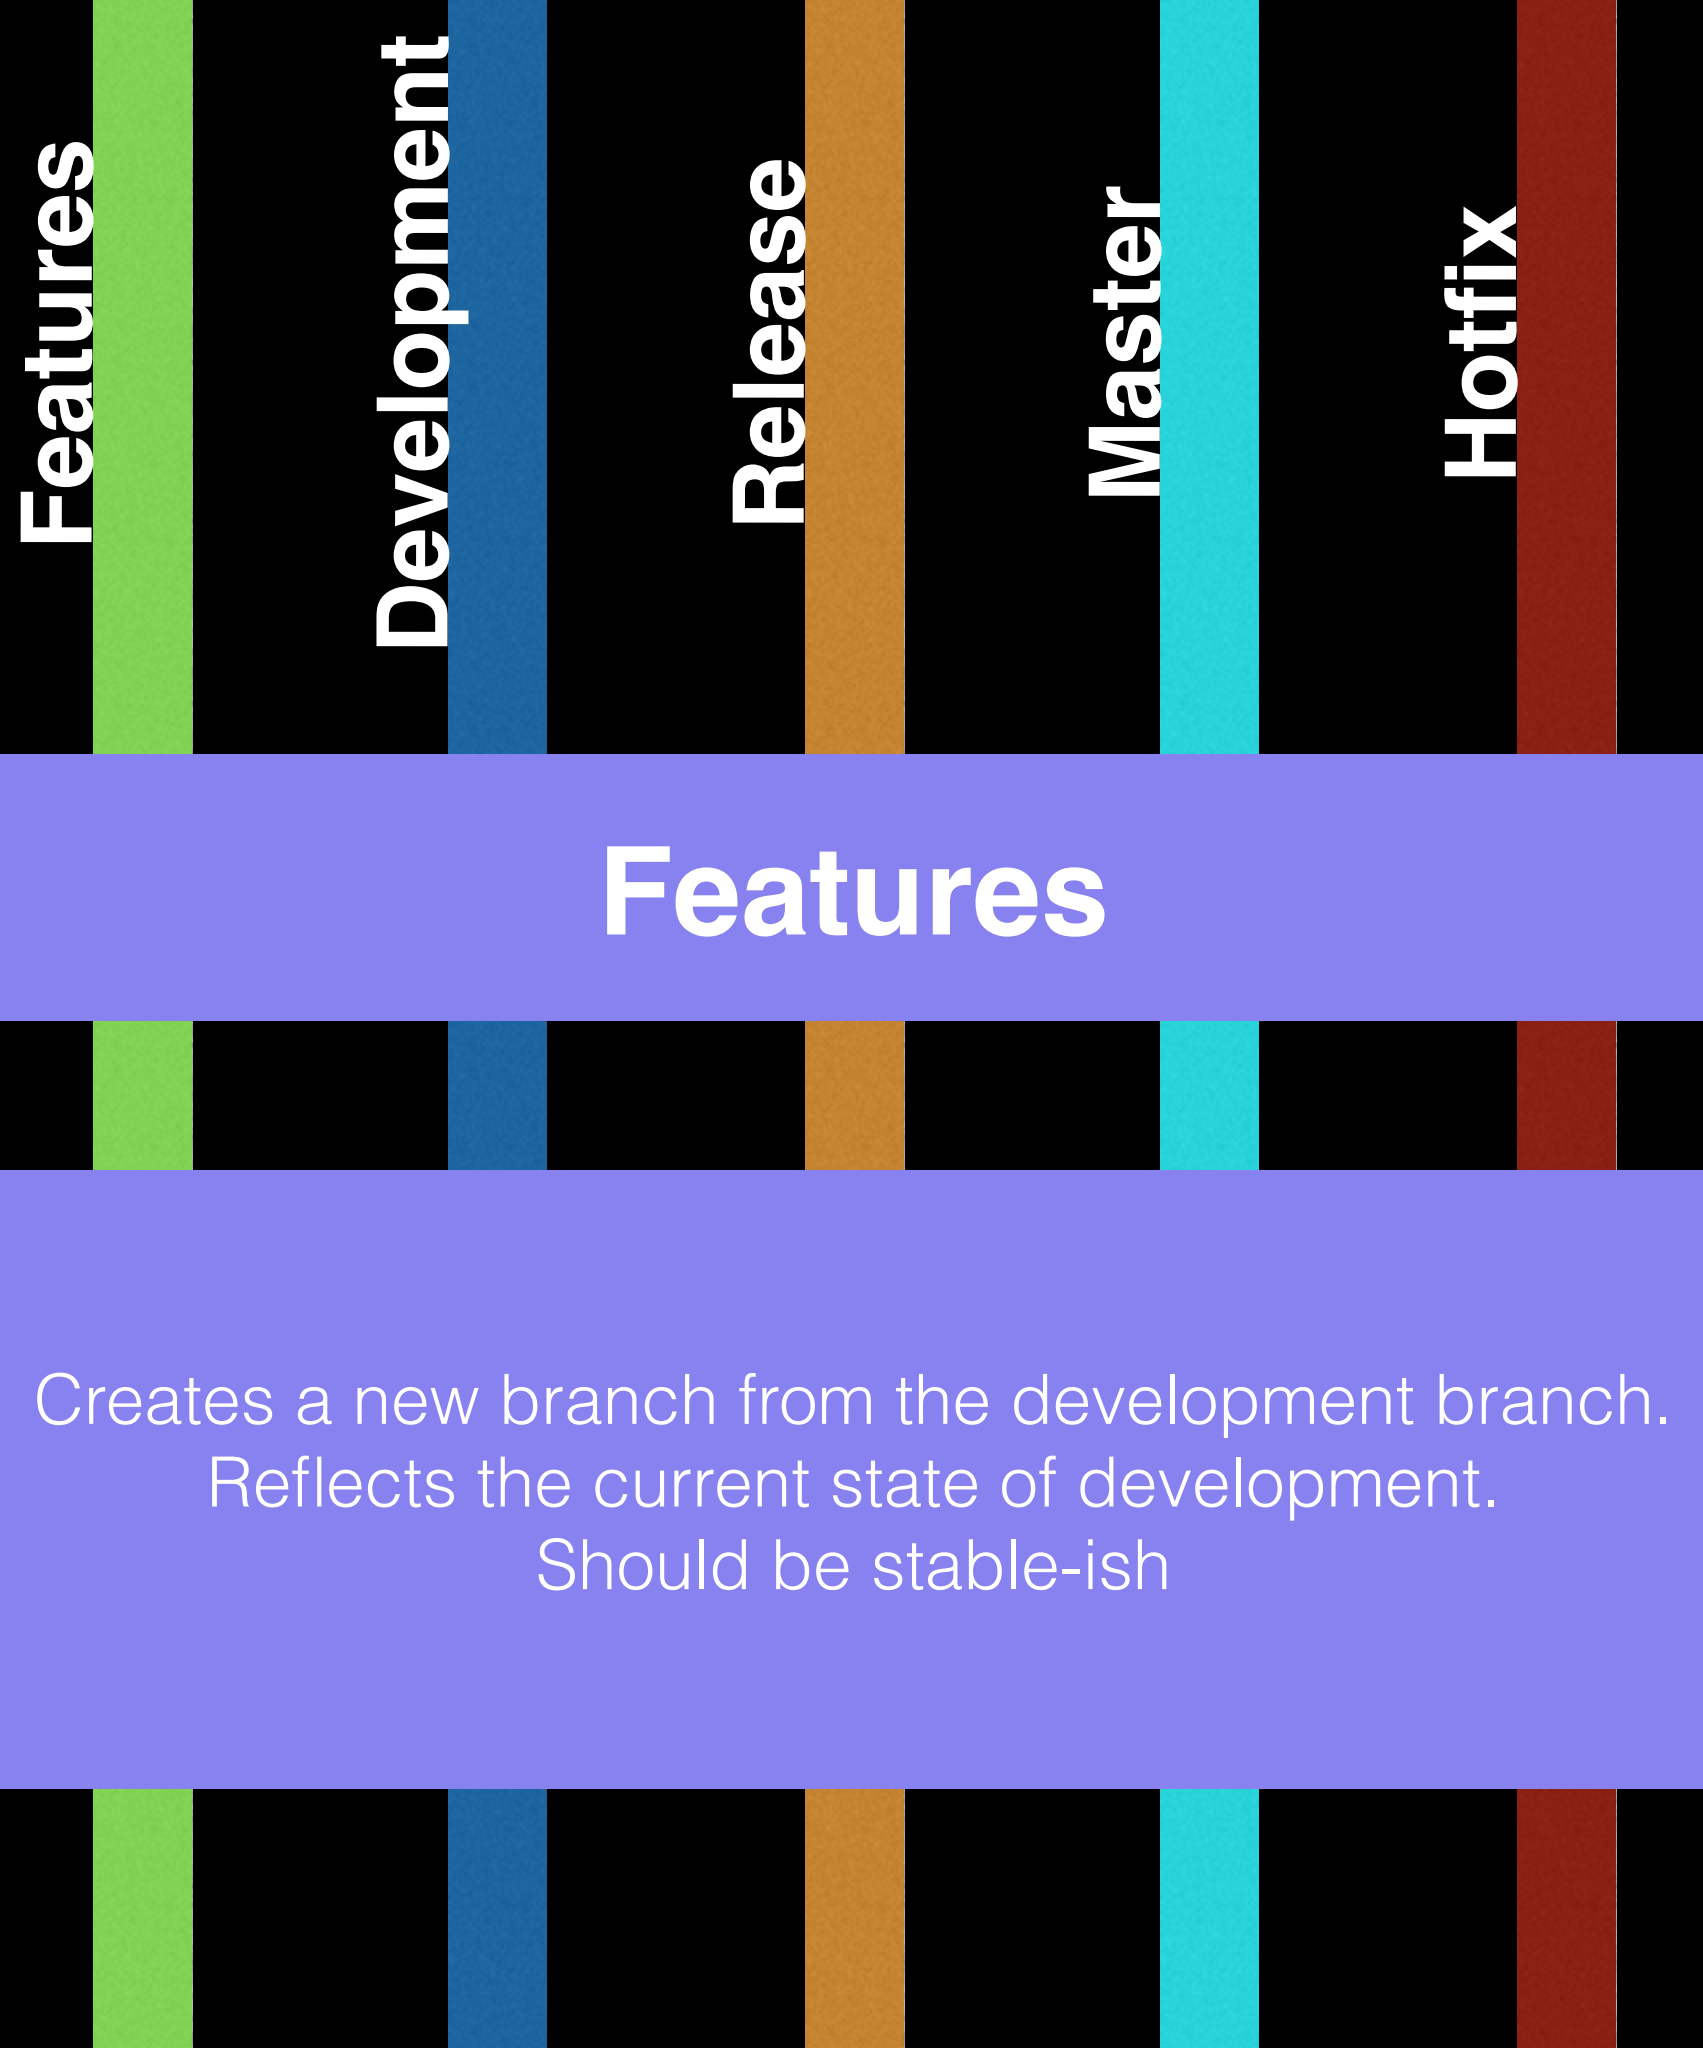

**Development**

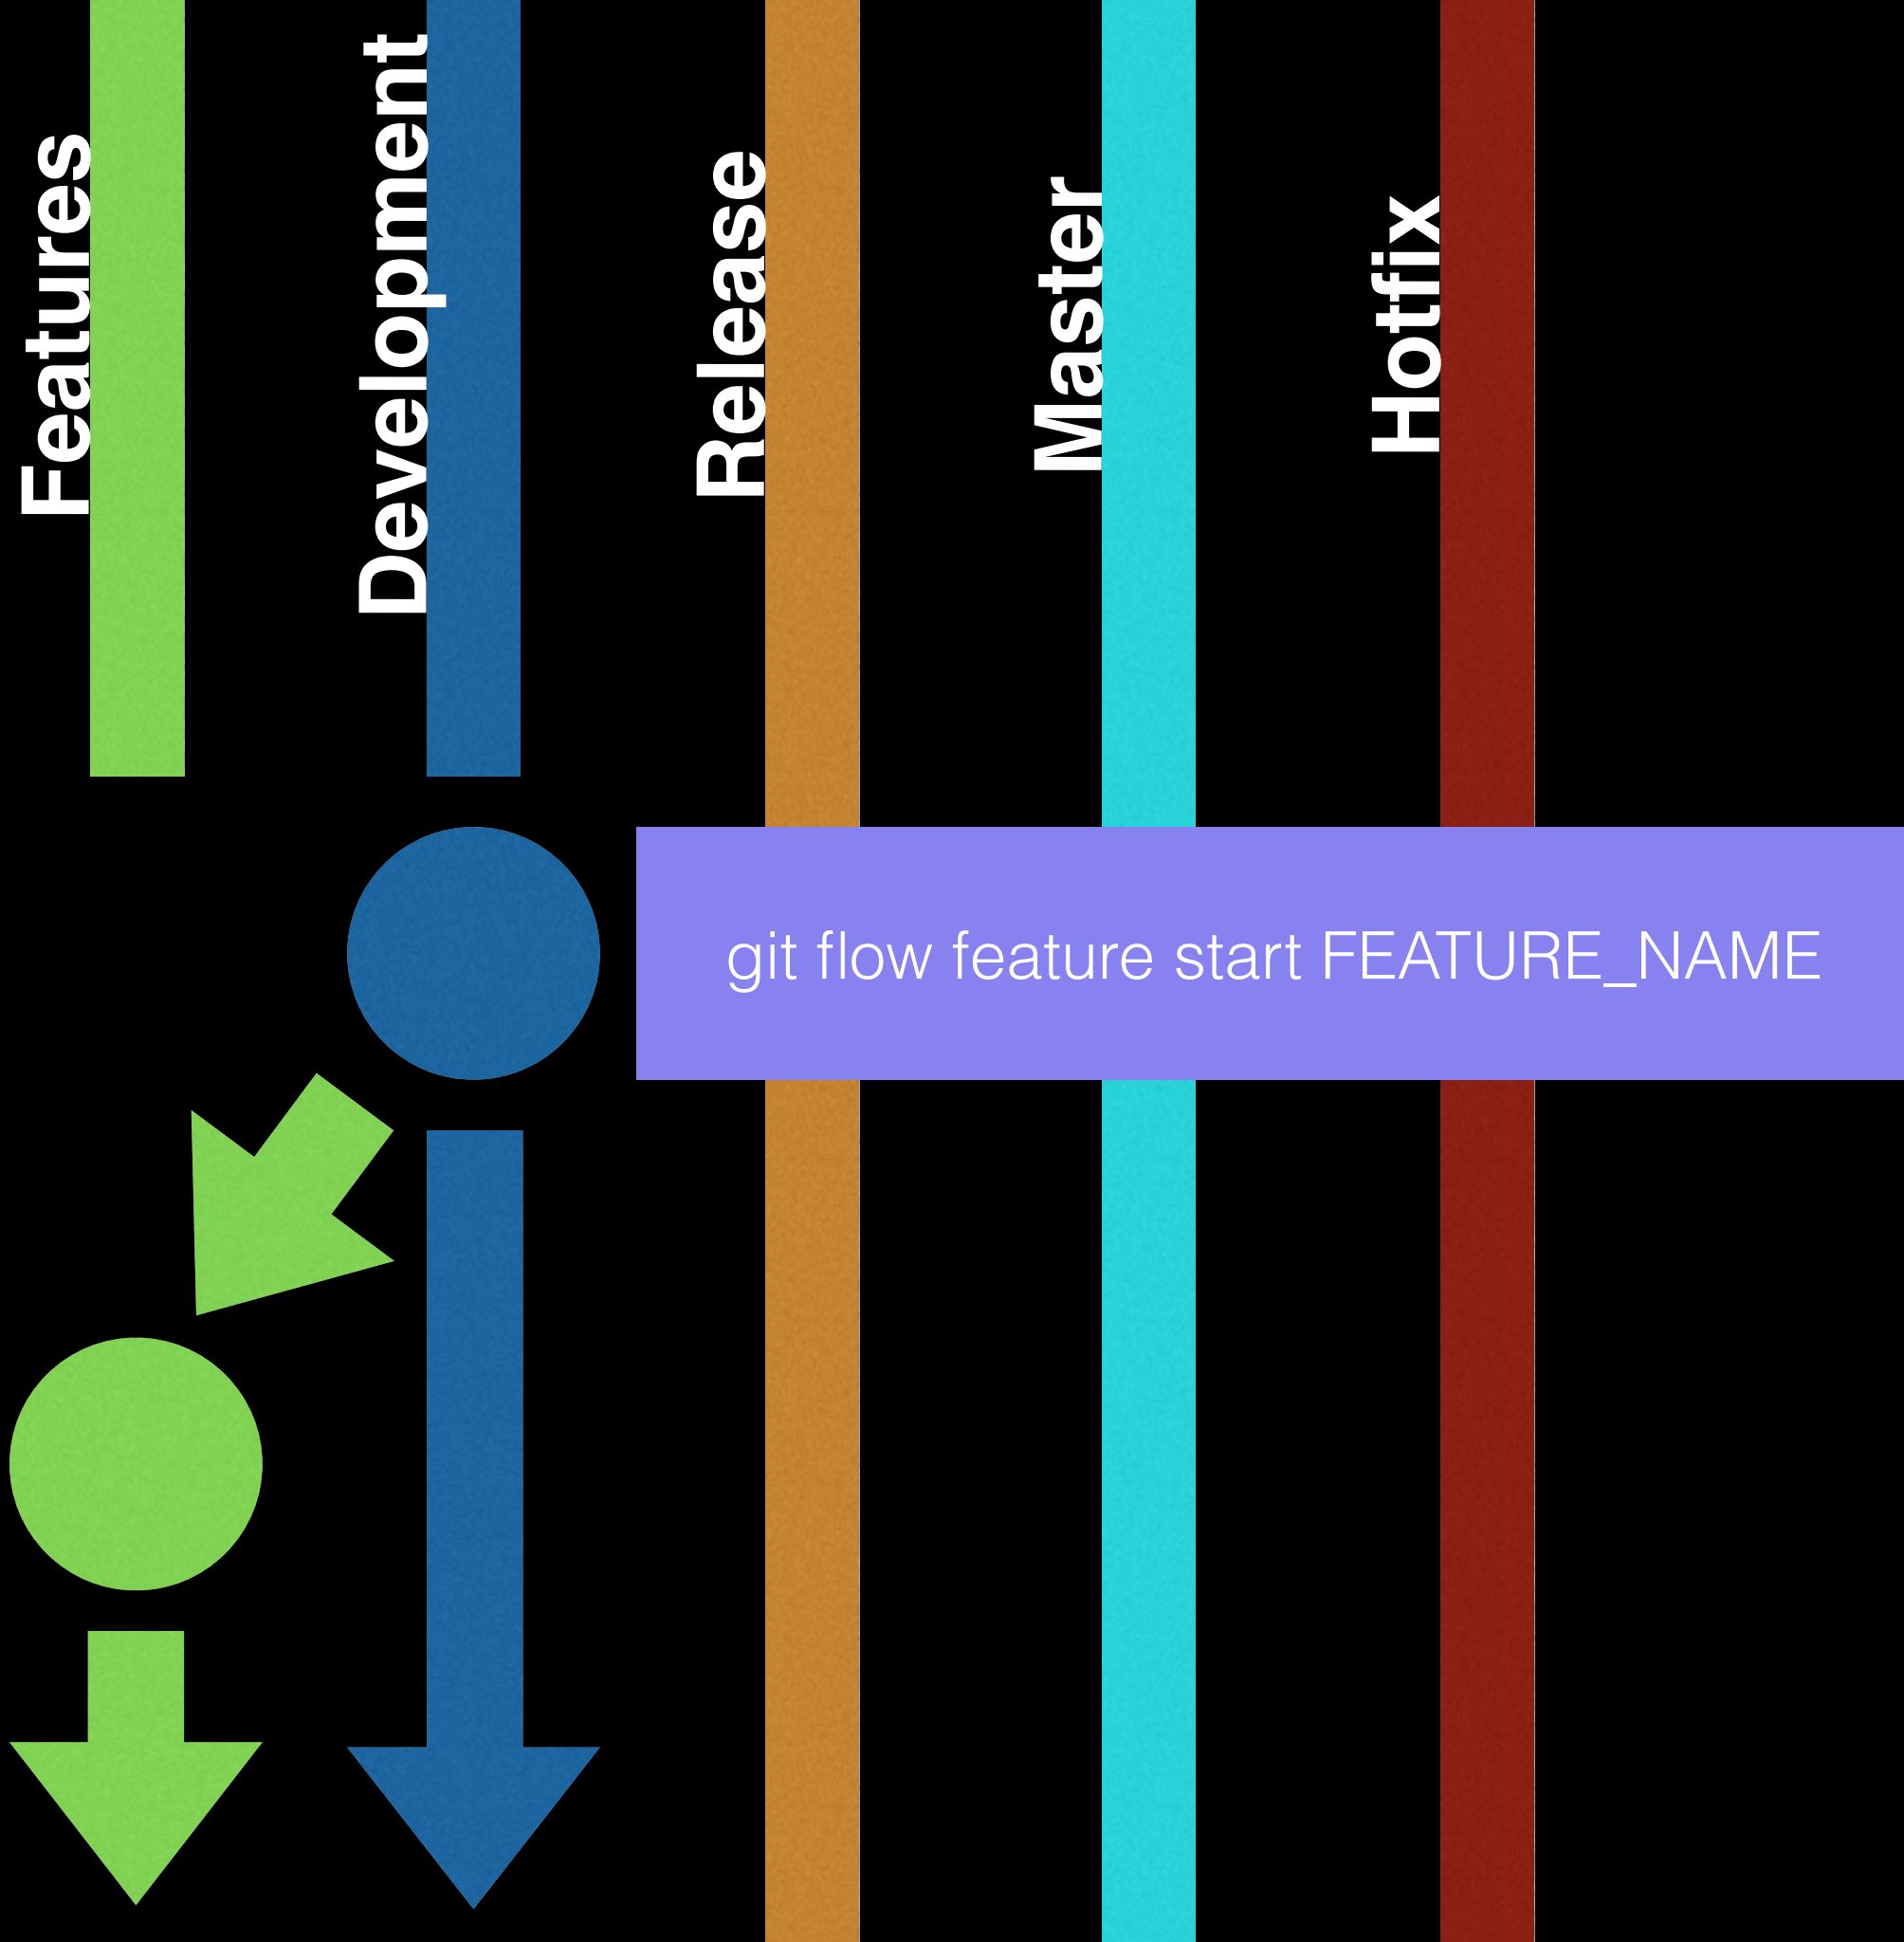

**Release**

**Master**

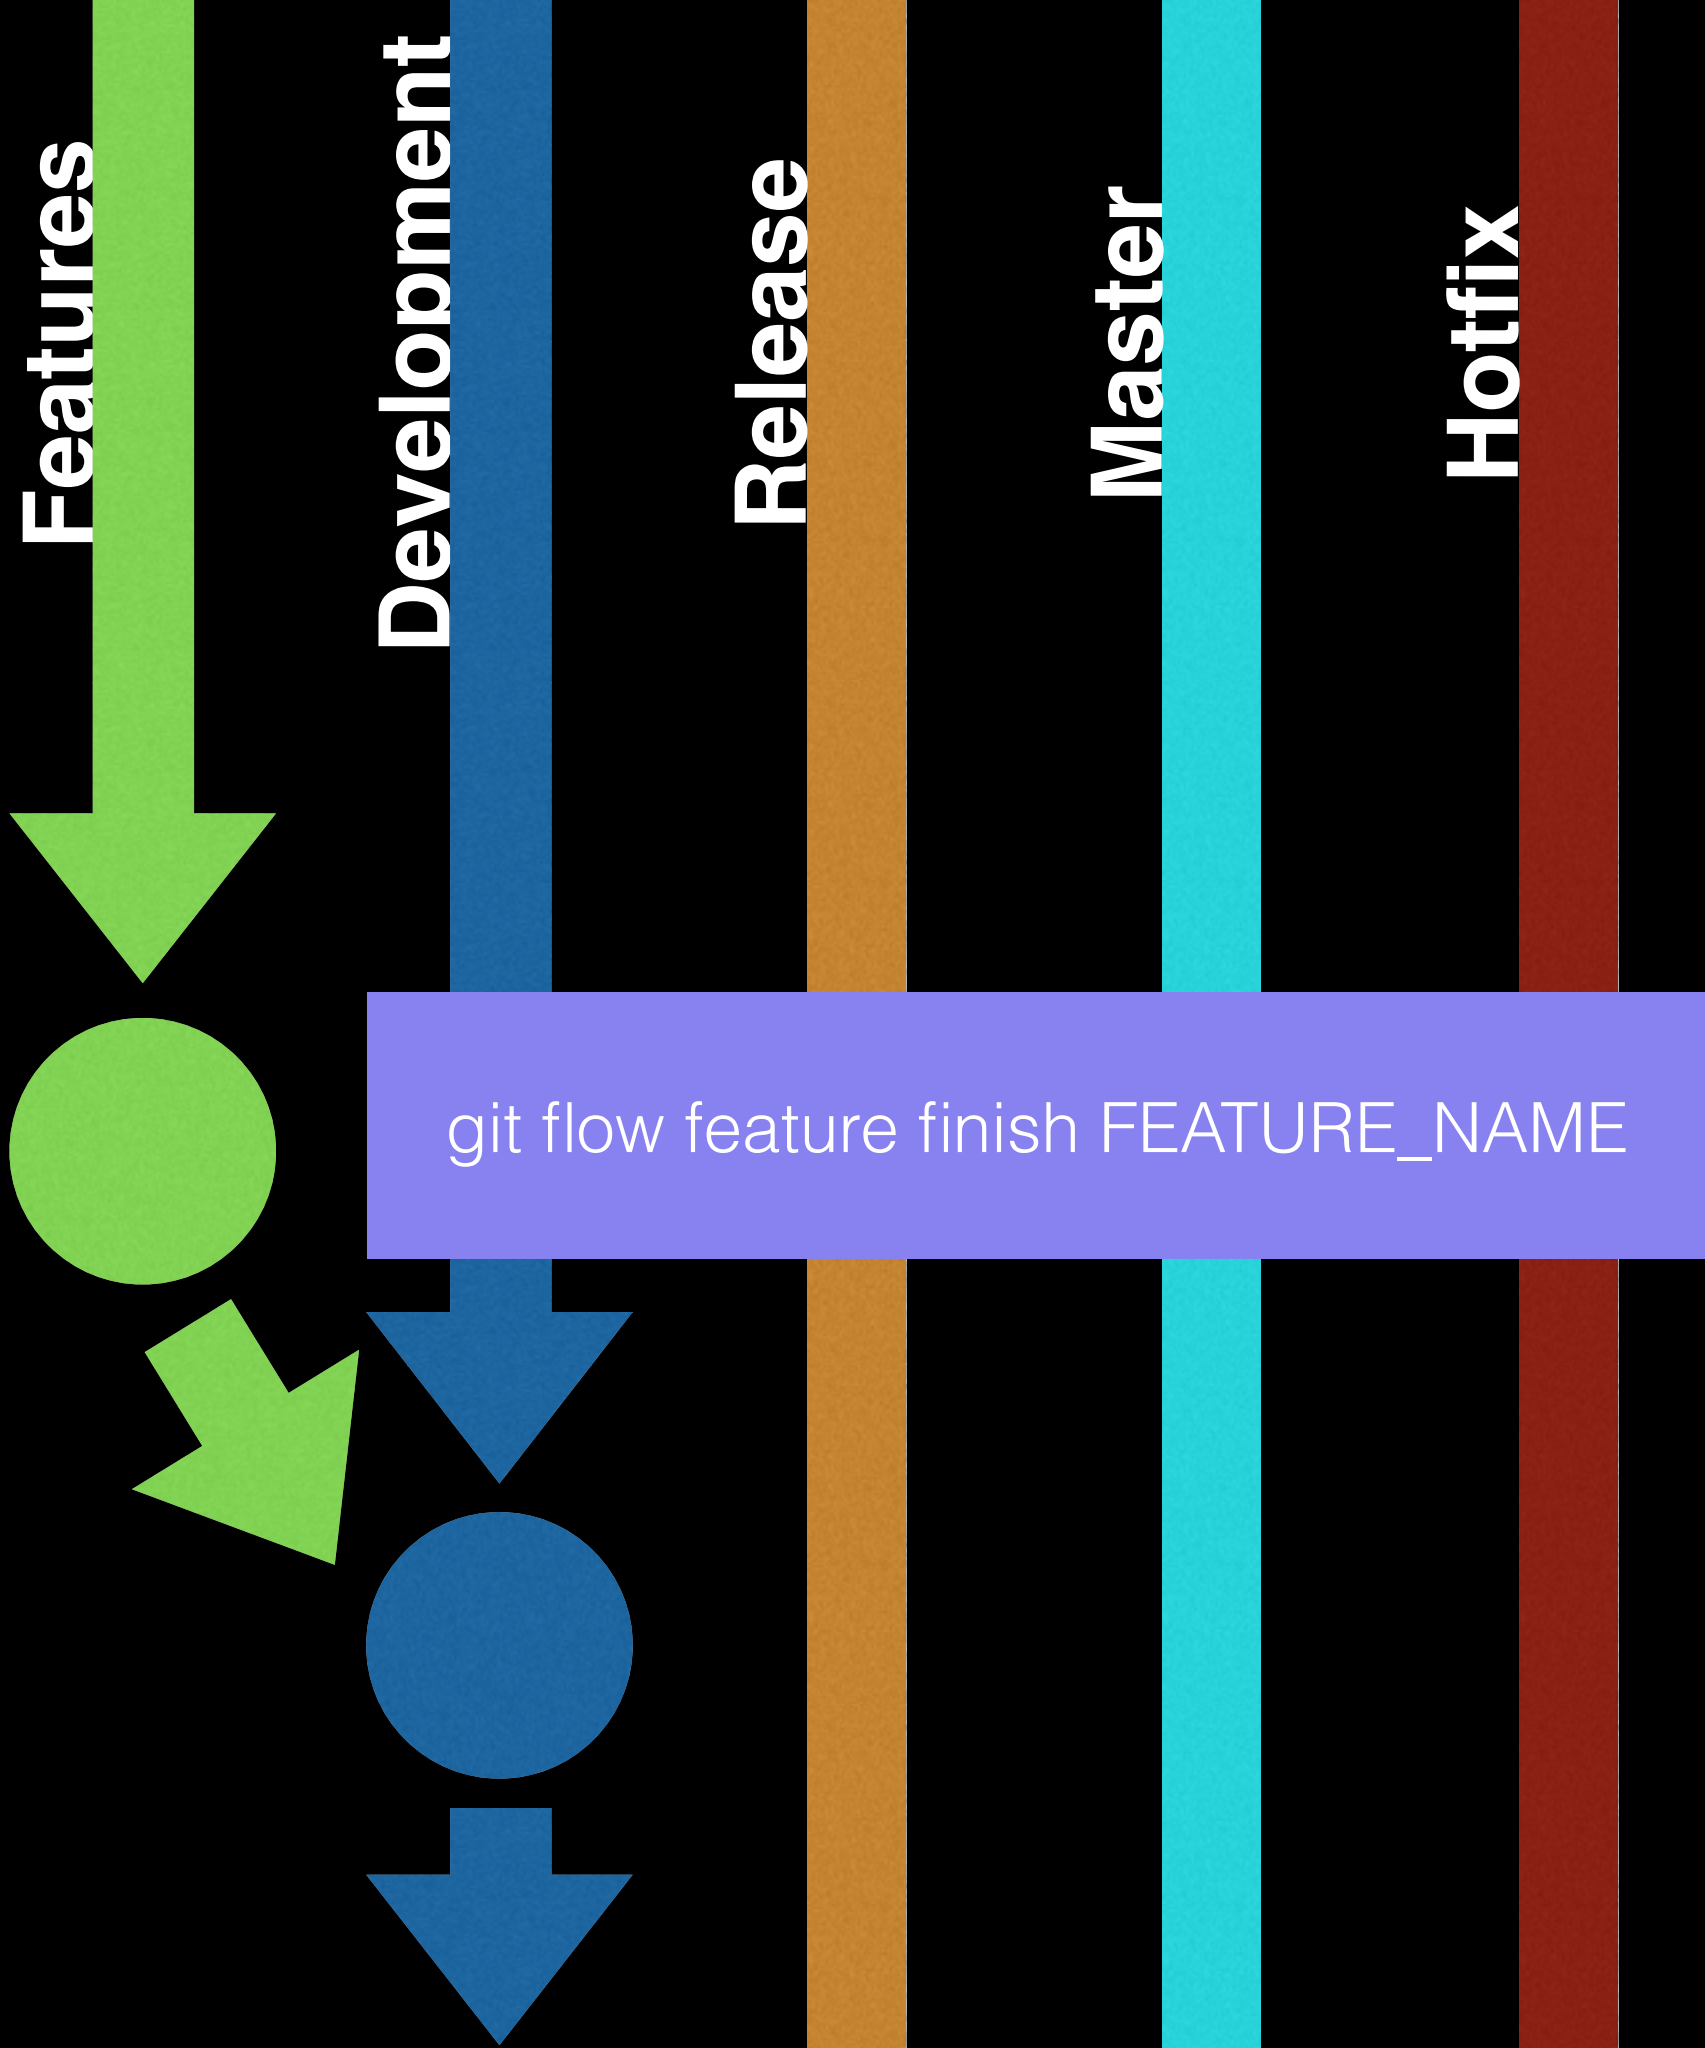

**Hotfix**

**Development**

**Release**

**Master**

**Hotfix**

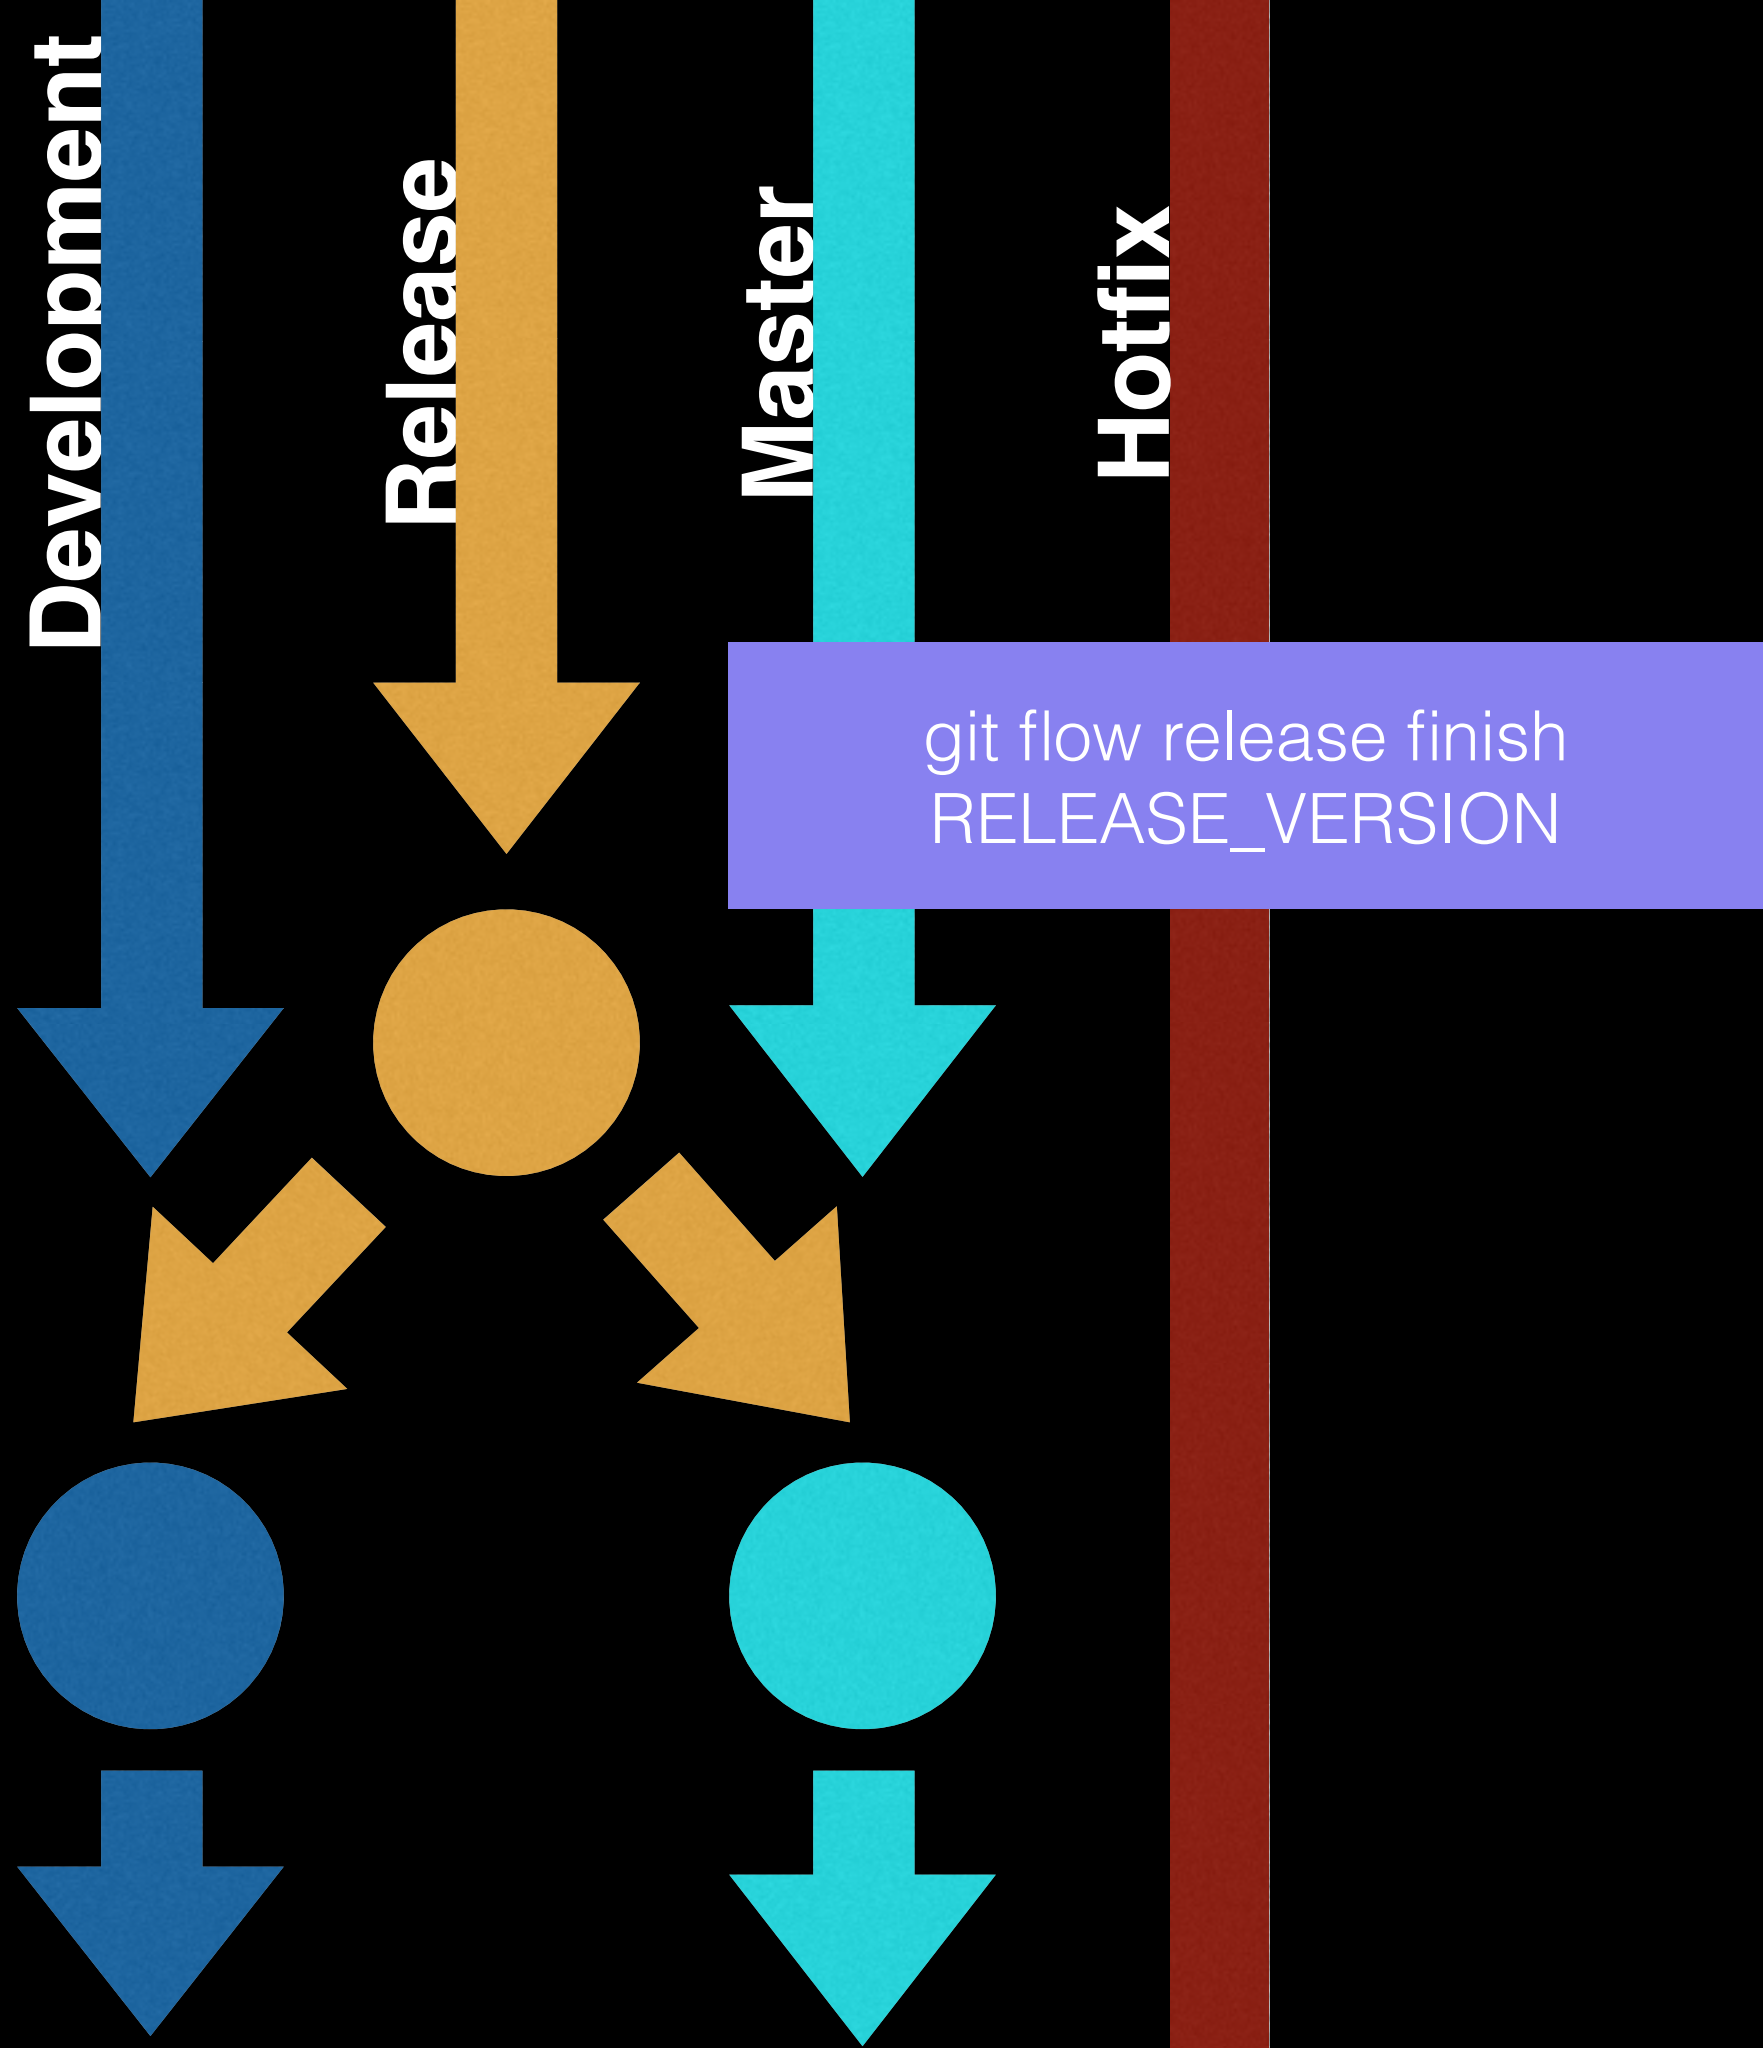

## **Releases**

Creates a release from the development branch.  
Must be stable!

`git flow release start RELEASE_VERSION [COMMIT]`

Development

Master

Hotfix

## Hotfixes

Let's be honest there are still bugs in the released version.

They need to be fixed without polluting the master and release branches with unstable code!

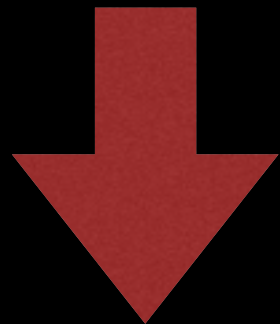

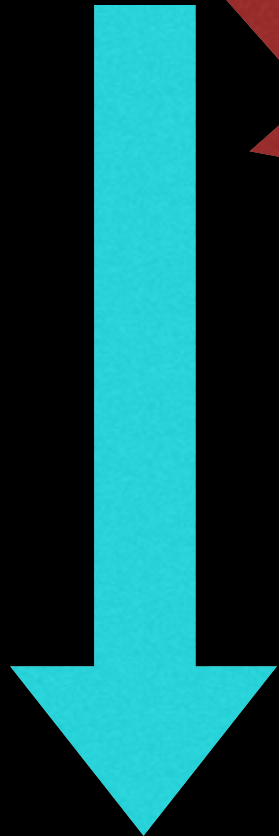

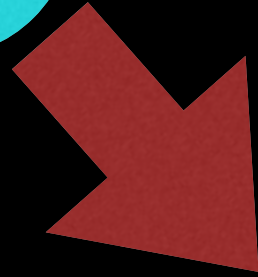

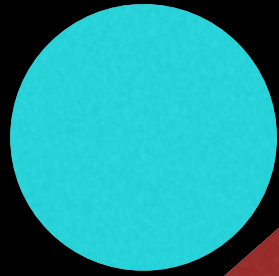

But the changes have to be reflected in development.

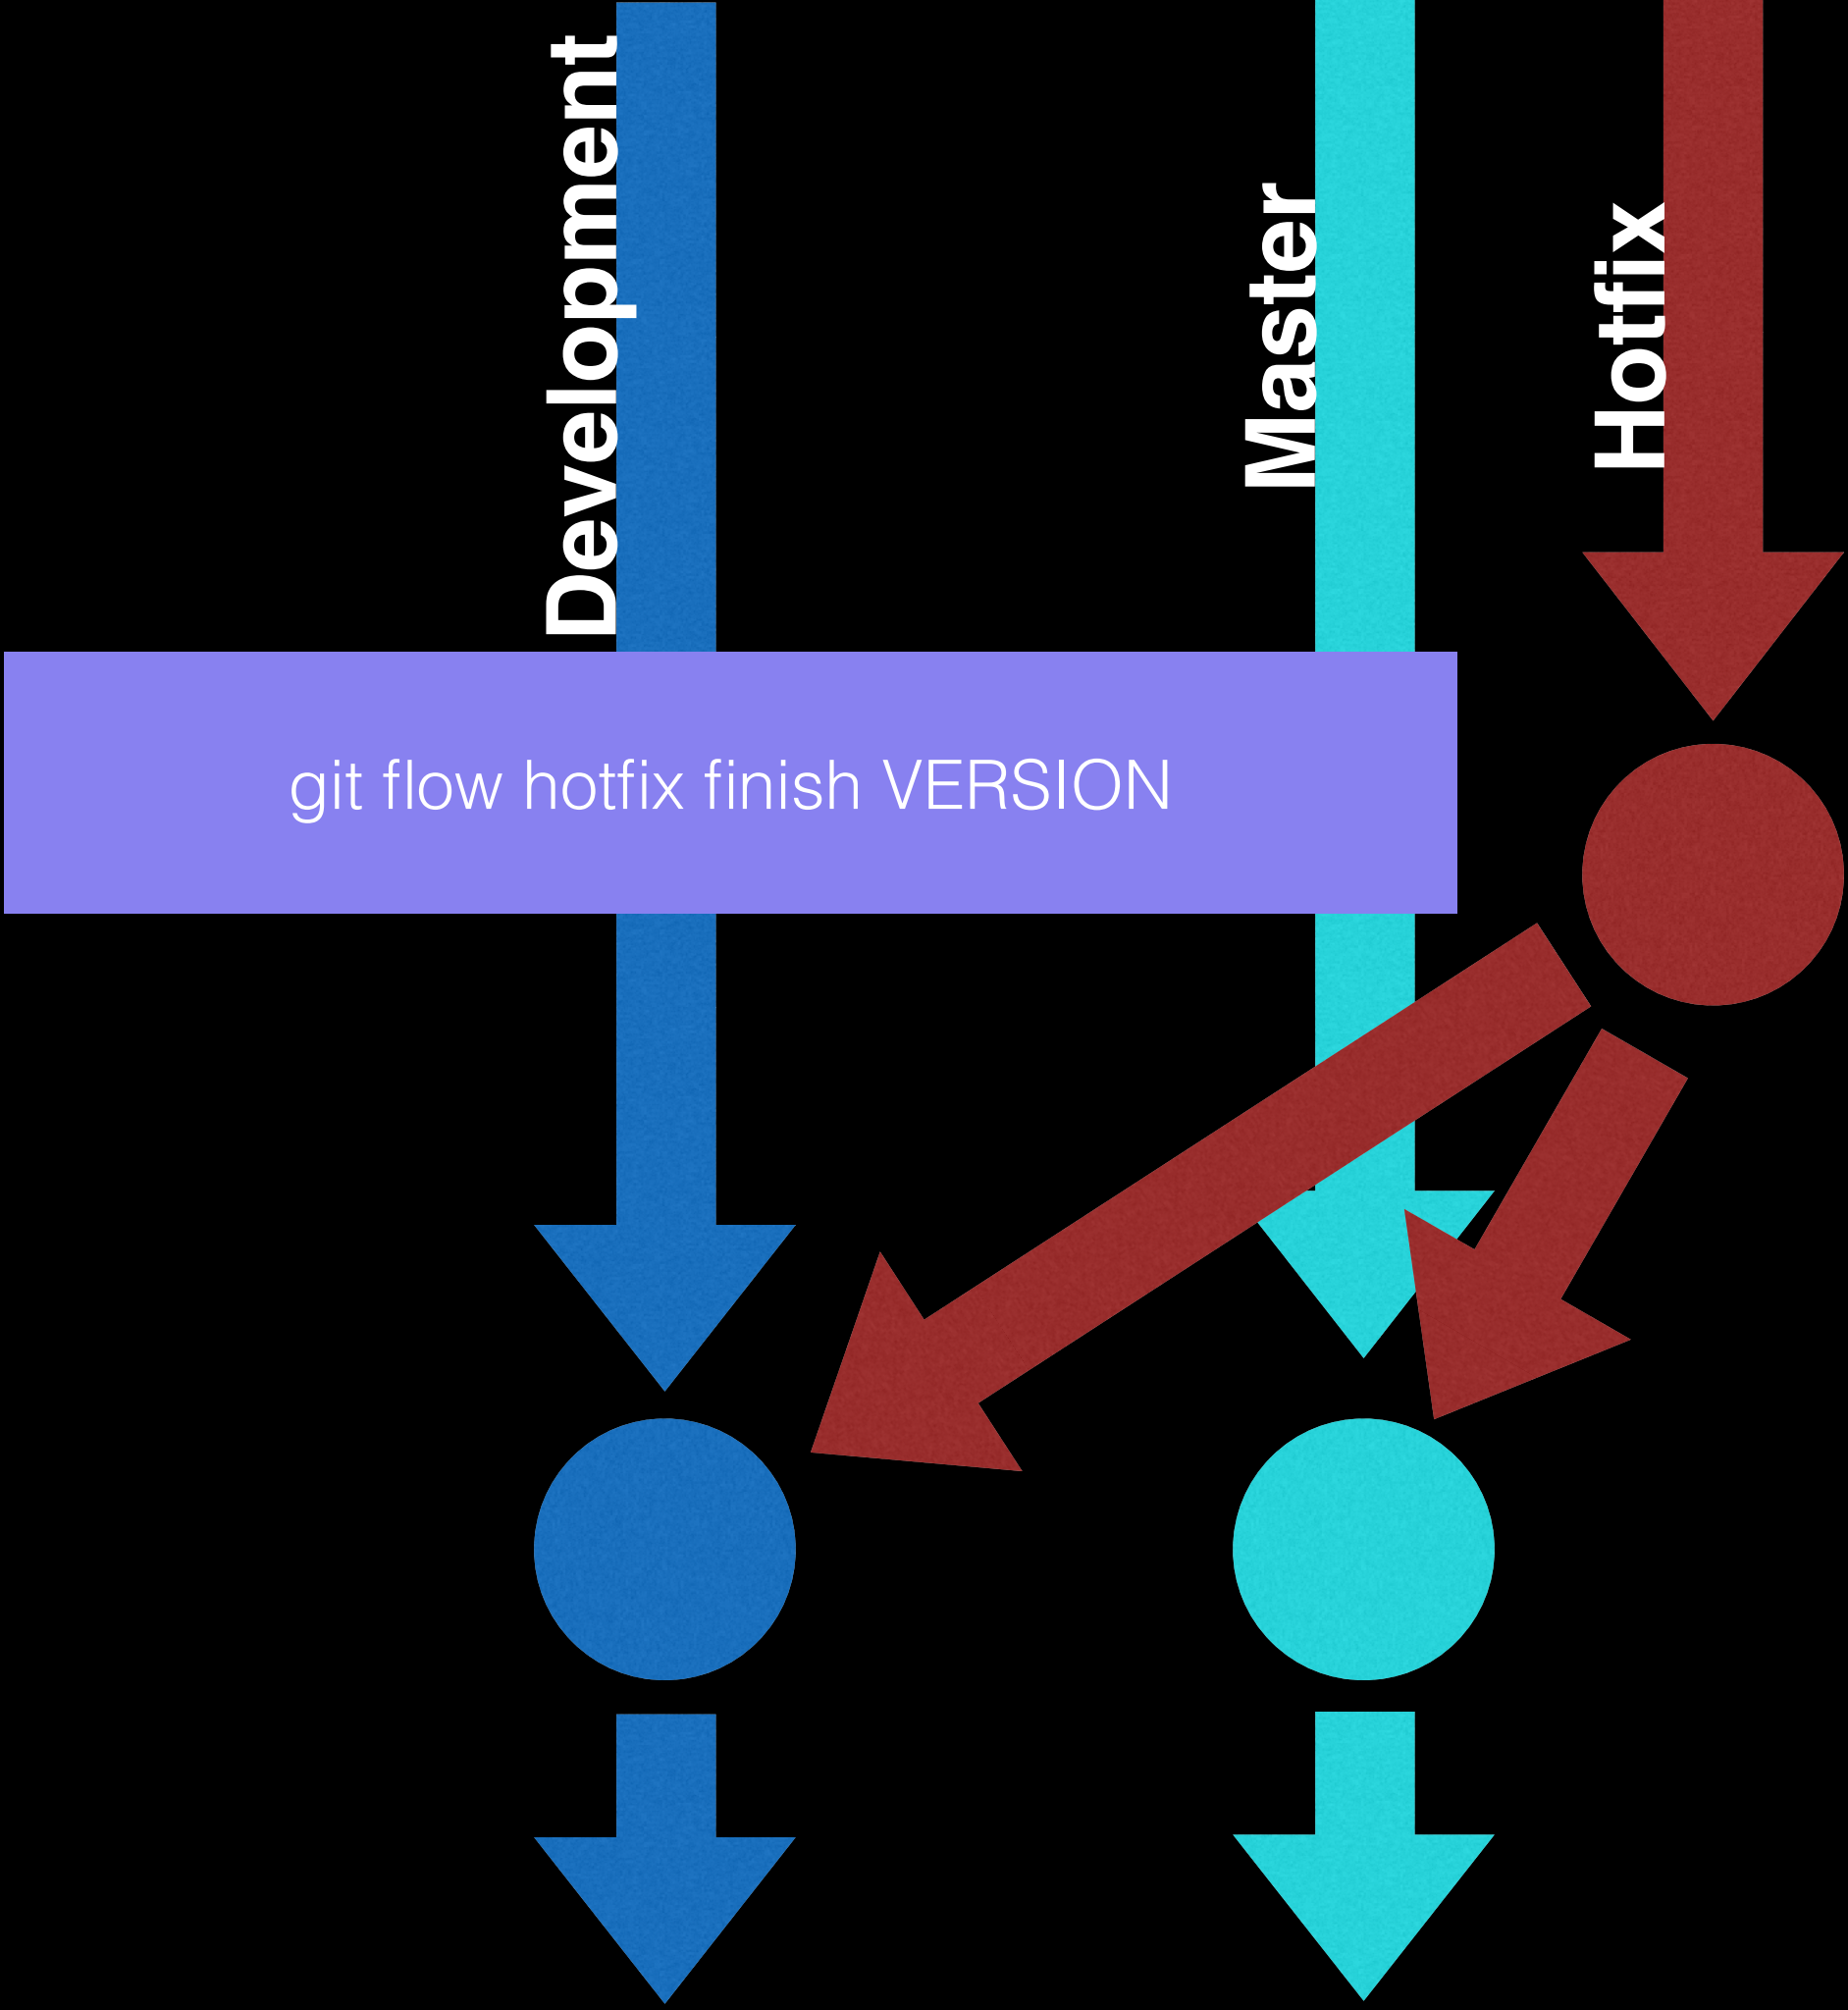

git flow hotfix start VERSION [BASENAME]

Development

Master

Hotfix
